WISCONSIN STUDY IN POLAND SCHOLARSHIP FUND

“Most of the Poles who emigrated to Wisconsin came between the time of the American Civil War and the First World War. Included in that group were members of my family. They all spoke Polish and identified themselves as Polish, although their travel papers showed they were from other countries, countries that occupied what is now modern day Poland.”

We are pleased to announce that a Wisconsin couple is spearheading an effort to raise funds for Wisconsin students of Polish descent to attend 4- and 6-week summer programs at the Jagiellonian University in Krakow, Poland. To aid in this effort, they have pledged to donate monies towards a scholarship, which will be entitled **“The Wisconsin Study in Poland Scholarship”** or WSIPS and are asking Polish organizations and the Wisconsin community to join this effort.

The Foundation will award a minimum of two (2) scholarships through 2029 to Wisconsin students of Polish descent and will continue awarding future scholarships based on the level of support from Wisconsin’s Polish community.

The Kosciuszko Foundation is a 501 (c) (3) organization. Anyone wishing to make a donation towards this effort may send contributions to the “Wisconsin Study in Poland Scholarship Fund.” Send contributions to the Kosciuszko Foundation, 15 East 65th Street, New York, NY 10065. All donors will receive a letter acknowledging their donation for tax purposes.

THE DONORS HAVE SAID:

The state of Wisconsin has one of the largest percentages of Americans of Polish heritage of any state in the country.

“I find Poland to be an amazing country, not because it’s where my family came from, but because of its Phoenix-like rise from the ashes of war and political dismemberment. This was possible because of the strength and resilience of its people. Despite the trials and tribulations that Poles have endured, Poland has a proud and rich history, but many Polish Americans, particularly young Polish Americans, don’t know Poland’s story very well.”

“That’s why I believe the mission of the Kosciuszko Foundation is so important. It allows a young generation of Polish Americans to experience Poland for themselves, and with that, I trust that the Wisconsin Study In Poland Scholarship will allow students with this Polish ‘experience’ to value their heritage more deeply.”
